## What Past Seminar Participants Have Said

### **Great Seminar!**

*I have never been more impressed or more satisfied with any other seminar, ever! The content was great, it was very well presented. - Sandra Esford*

***There is strong scientific evidence** that the stimulation that puppies get when they are raised the Avidog® Way pays dividends throughout a dog's life. In my experience, these dogs learn faster, have greater strength and coordination, and are unfazed by new and unusual experiences. – Chris Zink, DVM PhD*

***The Transformational Puppy Rearing seminar was incredible.** Gayle's intelligence, passion, and commitment, along with her dynamic delivery and wonderful sense of humor, made the two information-packed days fly by and left me wanting more. - Kelly St-Jacques, Ph.D.*

***The great presenter inspires!** It has often been said that the average presenter informs, the good presenter persuades and the great presenter inspires. Gayle definitely belongs in the latter category. I have never been to a workshop where so many people had such profound shifts in thinking and such enormous learning, regardless of background, experience, interest or breed. When participants left the workshop, they were motivated, inspired, and excited! – Pam Martin*
